

ตาราง ค่าวิกฤติของ T ในการวิเคราะห์ Kendall rank-order correlation coefficient

N	One-tailed	.100	.050	.025	.010	.005
	Two-tailed	.200	.100	.050	.020	.010
11		.345	.418	.491	.564	.600
12		.303	.394	.455	.545	.576
13		.308	.359	.436	.513	.564
14		.275	.363	.407	.473	.516
15		.276	.333	.390	.467	.505
16		.250	.317	.383	.433	.483
17		.250	.309	.368	.426	.471
18		.242	.294	.346	.412	.451
19		.228	.287	.333	.392	.439
20		.221	.274	.326	.379	.421
21		.210	.267	.314	.371	.410
22		.195	.253	.295	.344	.378
23		.202	.257	.296	.352	.391
24		.196	.246	.290	.341	.377
25		.193	.240	.287	.333	.367
26		.188	.237	.280	.329	.360
27		.179	.231	.271	.322	.356
28		.180	.228	.265	.312	.344
29		.172	.222	.261	.310	.340
30		.172	.218	.255	.301	.333
